

# Popsicle Stick Spider Web

## Materials:

- White Yarn
- Elmers Glue
- Glitter
- Plastic Spider
  - Not necessary, but you can add one if you like!

## Instructions:

1. Glue three popsicle sticks together to make a star-like shape.
  - a. You can use Elmer's glue or hot glue. Hot glue can eliminate wait time for the glue to dry.
2. Cut a piece of yarn about 2-3 feet.
3. Tie the piece of yarn around the center of the popsicle sticks and tie a knot.
4. Wrap the yarn around each spoke of the web form.
  - a. You can get a better effect if you wrap over the top of each stick rather than underneath.
5. Keep working your way around, making sure to space the yarn a little apart.
6. When you fill the sticks, tie a knot and cut off any excess yarn.
7. You can tie long strings on the ends to hang.
8. Add a spider!
