Dear Wine, Cheese, and Trees Supporters:

As evidenced by this booklet, the Wine, Cheese, and Trees Team has been hard at work again to plan this event! We want to sincerely thank ALL of tonight's donors for their gracious gifts that you will see on the live auction, silent auction and raffle tables. We are incredibly GRATEFUL for the outpouring of support! Tonight, we hope you'll feel proud to be a part of this fantastic endeavor by taking home some of the wonderful offerings.

The Wine, Cheese, and Trees Team are striving to raise \$50,000 for our three all-volunteer organizations. The proceeds raised will be used by each group for the following:

The Geneva Natural Resources Committee will use their proceeds to continue their Greening Geneva Initiative – a reforestation project that is replanting thousands of trees to replace the ash trees lost in our parkways to a devastating infestation of Emerald Ash Borer.

The Geneva Park District Foundation will use their proceeds to purchase and plant trees throughout the Park District; continue to support their "Oaktober" Planting Program; update the Butterfly House at Peck Farm Park; and install renewable energy strategies in various parks.

The Geneva Library Foundation will use their funds to positively impact the community by making it possible for everyone in Geneva to discover, inspire, and grow; provide support for educational programming; and enhance library grounds with plantings, art, and educational features.

Our organizations also look at opportunities to educate others about the importance of trees in our urban environment. And not just any trees, we are promoting trees that are native to this area. Oak trees are especially important and will provide future generations with a tree that can be enjoyed for more than a century or two. They also provide invaluable wildlife habitat and food in urban areas that harbor migrating and overwintering birds. To that end we are going to put more effort in to planting oak trees, in partnership with kids and residents of Geneva. When we plant an oak tree, we are investing in all of our futures.

Thank you for your support both great and small—every bit moves us closer to our goal of a reforested City. It's exciting to celebrate tonight with you and dream of our future endeavors!

Sincerely,

The Wine, Cheese, and Trees Team
