In addition to the client participating in Ultimate Ninjas everyday activities, other activities available at Ultimate Ninjas include parties, classes, competitions, camps, special events, and an adult fitness program, ULTIFIT.

While there are many benefits associated with these activities, it is important that adult participants and the parent/legal guardian of minor participants (collectively “PARTICIPANT/PARENT”) know that Ultimate Ninjas activities, like all physical activities, involve some risks of injury that are inherent to the activity. Some of the *inherent risks* of the activities include, but are not limited to falls (even on padded surfaces), collisions with other participants or with stationary objects, landing wrong on leaps or jumps, both on and off padded surfaces, landing on another participant, over-exertion, attempting actions or maneuvers that are beyond a participant’s capacity, landing on a hard surface, slips and falls within the activity area or in other parts of the facility, unexpected failure of the equipment, and shifts in padding. Appropriate attire should be worn at all times by the participant, athletic clothing and close-toed shoes are required. Jewelry, such as rings, earrings, bracelets, watches, necklaces, jeweled pants, and items in pockets are strictly prohibited. *Other inherent risks* include erratic or careless behavior of the participant, erratic or careless behavior of other participants, supervisory or judgment error by Ultimate Ninjas staff (e.g., misjudging the capacity of the participant and/or the failure to identify the potential for injury.).

Further, **Ultimate Ninjas feels that it is important that the PARTICIPANT/PARENT understands the three types of injuries that can occur at the Ultimate Ninjas facilities:** (1) *Minor Injury*, including but not limited to muscle strains and sprains, bruises, abrasions, blisters, rope burns, and contusions; (2) *Serious Injury*, including but not limited to severe sprains, broken bones, ligament and joint injuries, concussions, and eye injury; and (3) *Catastrophic Injury*, including but not limited to brain injury, cognitive impairment, paralysis, heart attack, and death.
